February Update from SlingShot Assembly

Our facilities in both Colorado and Wisconsin are working around the clock to deliver PCBs to our customers near and far. At a time when global supply chains are being impacted by Coronavirus, we are seeing an influx in new inquiries wanting to know if we are operating business-as-usual. The answer is YES.

SlingShot Assembly is a US-based manufacturer. We prototype and assemble PCBs start-to-finish at our facilities in Colorado and Wisconsin.

At SlingShot Assembly, we offer a 100% domestic product that includes boards, components, and assembly. With us, you can always count on:

- No Tariffs
- No Delays
- Made in USA start-to-finish
- Quick-turn to get projects back on track
- Prototypes delivered in as little as 3-5 days from Quote

Please reach out to our Sales team with any questions, or to request a quote on your next project.

Quote online in minutes, or send your files directly to sales@sassembly.com to receive a custom same-day quote from our dedicated team.

Notice of Email Domain Change

As of Friday, February 28th, SlingShot Assembly company email addresses have changed to **[name]@ssapcb.com**. This will not affect our operations in any way, and we are doing so only to simplify things across our organization moving forward.

You will still be able to reach us using our old email addresses, as messages will forward to our new domain. However we do ask that you take a moment to update your SlingShot Assembly contacts to include our new email addresses, which remain unchanged except for the domain. For example, mdavidson@sassembly.com is now mdavidson@ssapcb.com.

You may also want to add the **@ssapcb.com** domain to your 'Safe Sender' list to ensure new messages are received.

Our website URL remains unchanged at www.slingshotassembly.com.

Engineering and Design Tips & Tricks:

1. Including CAD data with your Gerber files increases DFA accuracy and speed
2. Call out wash sensitive parts on your assembly drawing or in the quote request
3. Include alternate engineering contacts if you will be unavailable during the assembly time.
